

# **Technical data sheet** Bar code positioning system

Part no.: 50106813

BPS 8 SM 100-04

### Contents

- Technical data
- Dimensioned drawings
- Electrical connection
- Diagrams
- Operation and display
- Part number code
- Notes
- Accessories

### **Technical data**

#### Basic data

| Series        | BPS 8                                    |
|---------------|------------------------------------------|
| Data telegram | Binary protocol 4                        |
| Order guide   | Bar code tape must be ordered separately |

### **Characteristic parameters**

### **Optical data**

| Depth of field           | 60 120 mm                      |
|--------------------------|--------------------------------|
| Light source             | Laser, Red                     |
| Wavelength               | 655 nm                         |
| Laser class              | 2, IEC/EN 60825-1:2014         |
| Transmitted-signal shape | Continuous                     |
| Light beam exit          | Lateral with deflecting mirror |
|                          |                                |

#### Measurement data

| Measurement range        | 0 10,000,000 mm |
|--------------------------|-----------------|
| Resolution               | 0.001 100 mm    |
| Measurement value output | 3.3 ms          |
| Max. traverse rate       | 4 m/s           |

#### **Electrical data**

| Protective circuit Short circuit | t protected |
|----------------------------------|-------------|
|----------------------------------|-------------|

### Performance data

| Supply voltage U <sub>B</sub> | 4.75 5.5 V, DC |
|-------------------------------|----------------|
| Current consumption, max.     | 250 mA         |

### Inputs/outputs selectable

| Output current, max.                | 100 mA     |
|-------------------------------------|------------|
| Number of inputs/outputs selectable | 1 Piece(s) |

#### Interface

| Туре                  | RS 232           |
|-----------------------|------------------|
| RS 232                |                  |
| Function              | Process          |
| Transmission speed    | 1,200 187,500 Bd |
| Data format           | Fixed            |
| Start bit             | 1                |
| Data bit              | 8                |
| Stop bit              | 1                |
| Parity                | Adjustable       |
| Transmission protocol | Adjustable       |
| Data encoding         | Binary           |
|                       |                  |

### Service interface

**Number of connections**

#### Note

### **Notes**

#### Observe intended use!

- This product is not a safety sensor and is not intended as personnel protection.
- ♥ Only use the product in accordance with its intended use.

## $\Lambda$

### ATTENTION! LASER RADIATION - CLASS 2 LASER PRODUCT

#### Do not stare into beam!

The device satisfies the requirements of IEC/EN 60825-1:2014 safety regulations for a product of **laser class 2** as well as the U.S. 21 CFR 1040.10 regulations with deviations corresponding to Laser Notice No. 56 from May 08, 2019.

- Never look directly into the laser beam or in the direction of reflected laser beams! If you look into the beam path over a longer time period, there is a risk of injury to the retina.
- ♥ Do not point the laser beam of the device at persons!
- 🖖 Interrupt the laser beam using a non-transparent, non-reflective object if the laser beam is accidentally directed towards a person.
- ♦ When mounting and aligning the device, avoid reflections of the laser beam off reflective surfaces!
- CAUTION! The use of operating and adjusting devices other than those specified here or the carrying out of differing procedures may lead to dangerous exposure to radiation!
- Observe the applicable statutory and local laser protection regulations.
- The device must not be tampered with and must not be changed in any way. There are no user-serviceable parts inside the device. Repairs must only be performed by Leuze electronic GmbH + Co. KG.

We reserve the right to make technical Leuze electronic GmbH + Co. KG info@leuze.com • www.leuze.com changes

6/8

### Notes

#### NOTE

#### Affix laser information and warning signs!

Laser information and warning signs are affixed to the device. In addition, self-adhesive laser information and warning signs (stick-on labels) are supplied in several languages.

- "Affix the laser information sheet to the device in the language appropriate for the place of use. When using the device in the US, use the stick-on label with the "Complies with 21 CFR 1040.10" note.
- 🌣 Affix the laser information and warning signs near the device if no signs are attached to the device (e.g. because the device is too small) or if the attached laser information and warning signs are concealed due to the installation position.
- 🌣 Affix the laser information and warning signs so that they are legible without exposing the reader to the laser radiation of the device or other optical
