#### **Basic data**

| Series              | 730                                   |
|---------------------|---------------------------------------|
| Operating principle | Throughbeam principle                 |
| Device type         | Transmitter                           |
| Contains            | Accessories for the use of the BT-2R1 |
| Application         | Detection of transparent objects      |
|                     | Object measurement                    |

Crossed-beam scanning Diagonal-beam scanning Parallel-beam scanning

#### **Special version**

Special version

#### **Optical data**

| Operating range                    | 0.1 4 m                    |  |
|------------------------------------|----------------------------|--|
| Operating range                    | Guaranteed operating range |  |
| Operating range, transparent media | 0.1 1.75 m                 |  |
| Operating range limit              | 0.1 6 m                    |  |
| Operating range limit              | Typical operating range    |  |
| Measurement field length           | 320 mm                     |  |
| Number of beams                    | 64 Piece(s)                |  |
| Beam spacing                       | 5 mm                       |  |
| Light source                       | LED, Infrared              |  |
| Wavelength                         | 940 nm                     |  |
| Measurement data                   |                            |  |

10 mm

Minimum object diameter

#### **Electrical data**

Protective circuit Polarity reversal protection Short circuit protected Transient protection

| Performance data              |                                                                                                            |
|-------------------------------|------------------------------------------------------------------------------------------------------------|
| Supply voltage U <sub>B</sub> | 18 30 V, DC                                                                                                |
| Residual ripple               | 0 15 %, From U <sub>B</sub>                                                                                |
| Open-circuit current          | 0 165 mA, The specified values refer<br>to the entire package consisting of trans-<br>mitter and receiver. |

#### **Time behavior**

| Readiness delay | 450 ms |
|-----------------|--------|
| Cycle time      | 1 ms   |

#### Connection

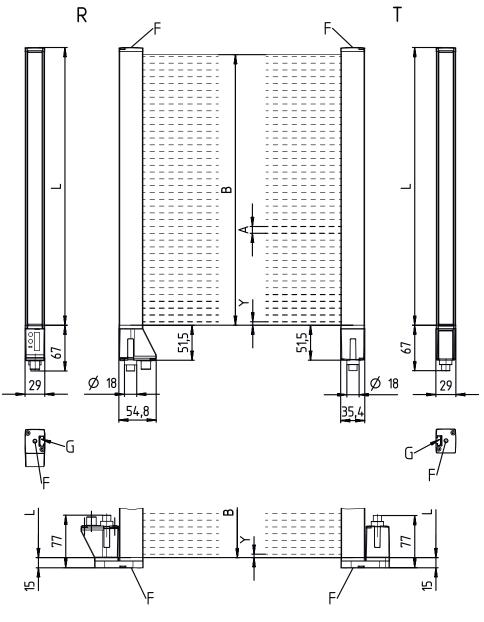

| Number of connections        | 1 Piece(s)             |
|------------------------------|------------------------|
| Plug outlet                  | Rear side              |
|                              |                        |
| Connection 1                 |                        |
| Function                     | Connection to receiver |
| Type of connection Connector |                        |
| Thread size                  | M12                    |
| Туре                         | Male                   |
| Material                     | Metal                  |
| No. of pins                  | 5 -pin                 |
| Encoding                     | A-coded                |
|                              |                        |

#### Mechanical data

| Design                         | Cubic                        |
|--------------------------------|------------------------------|
| Dimension (W x H x L)          | 29 mm x 35.4 mm x 343 mm     |
| Housing material               | Metal                        |
| Metal housing                  | Aluminum                     |
| Lens cover material            | Plastic                      |
| Net weight                     | 550 g                        |
| Housing color                  | Silver                       |
